Mindfulness Based Stress Reduction
*Davis Behavioral Health*

Stress is a normal part of everyday life. The current amount of physical, mental and social stress many are experiencing in U.S. society, however, is not normal. We practice mindfulness so that we can learn to relate to our stress in a new, healthier way. The practice of mindfulness is a radical shift to embracing and accepting who we are completely, non-judgmentally, with love and compassion.

Raising Anxiety Resilient Children
All Things Anxiety
1371 North 1075 West
Farmington, UT 84025
801-529-2334
www.allthingsanxiety.com

In this class, you will learn the ABC's of expressing feelings, the basics of changing negative thoughts and you'll understand what anxiety and depression truly are (not the roles they play on TV). You'll also identify your personal thinking distortions which are the main contributors to failure and unhappiness. I'll teach you the skills required to change these negative thoughts and truly help you change thinking and behaviors. Finally, I'll help you get to the core of your behaviors and thoughts. When you finally understand what is fueling your problems and anxiety, then you can truly make lasting change. By giving you this knowledge, you'll be able to teach and apply these principles to your children. Your loved ones will be able to say they received that class on emotional health that you never received yourself. You'll give them the opportunity to become anxiety and depression resistant.

- **When:** Thursdays from 7:00-8:30pm
- **Fee:** $25 per class (5 free spots in each class)

ABOUT THIS DIRECTORY

Directory Updates/Corrections
This document is a work in progress. Please contact providers to verify hours, costs, services, etc. Providers are welcome to add or remove information about their agency and services at any time. Many of these behavioral health resources are also included in an online county health resource locator found at www.davis4health.org.

If you have a resource you would like added to the directory or need to update your information please contact: Isa Perry, Davis4Health Coordinator, Davis County Health Department, 801-525-5212 or isa@daviscountyutah.gov.

Background
In 2013, access to behavioral health services was identified as a top public health improvement priority in Davis County. A community action group was formed to address the issue. They recognized the need to assess mental, emotional, and substance abuse services offered in Davis County. This directory is one effort to improve access to behavioral health services by identifying behavioral health providers and describing services offered.

Those interested in helping to improve access to mental/behavioral health services can join Davis Behavioral Health Network. To find out more information or to participate in group meetings contact Isa Perry, Davis4Health Coordinator, Davis County Health Department, isa@daviscountyutah.gov, 801-525-5212.
