Challenges:
- Currently Layton and South Weber are combined in the state’s small area data system
- Layton is a large city with 2 zip codes. May be beneficial to find data available at zip code level. For example, obesity rates in 84040 are 21.21% compared to 84041 at 31.39%
- Highest percentage of doctor-diagnosed hypertension of all small areas in Davis County
- Highest diabetes prevalence of all small areas in Davis County
- Highest percentage of people who reported cost as barrier to healthcare in the past year in Davis County

Notes: Small area data includes zip codes 84040, 84041, and 84045 (South Weber), the cities of Layton and South Weber.

Data retrieved from Utah’s Indicator-Based Information System (IBIS) for Public Health, and Community Commons (shca.org). Much of the data comes from the Behavioral Risk Factor Surveillance System (BRFSS), self-reported by those ages 18+.
