COUNTY CLERK/AUDITOR Steve S. Rawlings, CGFM

June 16, 2010

To The Honorable Board of County Commissioners and Citizens of the County:

This letter introduces the Comprehensive Annual Financial Report (CAFR) of Davis County (the County) for the fiscal year ended December 31, 2009. The County's CAFR is prepared by the County Clerk/Auditor's Office.

Publication of this report provides important information of a financial and non-financial nature. Management of the County is responsible for the accuracy, completeness, and fairness of the presentation and the inclusion of all pertinent disclosures.

We believe the information in this CAFR is accurate in all material respects and presents fairly the financial position and the results of operations of the County in accordance with accounting principles generally accepted in the United States of America (GAAP). We also believe that all disclosures necessary to enable the reader to gain a proper understanding of Davis County's financial affairs have been included.

In compliance with state laws, an annual financial audit of the County is completed each year by independent certified public accountants. The firm of Crane, Christensen & Ambrose P.C., has issued an unqualified ("clean") opinion for the County's financial statements for the year ended December 31, 2009. Their audit was conducted in accordance with auditing standards generally accepted in the United States of America and standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. The independent auditor's report on the Basic Financial Statements is included in the front of the Financial Section of this report.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complement this letter of transmittal and should be read in conjunction with it.

Federal regulations also require the County to undergo an annual "Single Audit" in conformity with the Federal Single Audit Act of 1984, as amended, and the U.S. Office of Management and Budget Circular A-133, *Audits of State and Local Government and Non-Profit Organizations*. Information related to the Single Audit, including the schedule of expenditures of federal awards, audit findings and recommendations, summary of prior audit findings, and the auditor's report, are contained in Section IV, Single Audit, beginning on page 141.

PROFILE OF THE COUNTY

For those who may be unfamiliar with the County, we offer a brief introduction. Davis County is Utah's smallest county in land area. It is a narrow strip of land containing only 223 square miles. It is the third largest county in population. An estimated 307,656 residents live in the County's fifteen communities. Frequented by Shoshone Indians during historic times, the area was among the first settled by members of The Church of Jesus Christ of Latter-day Saints who arrived in the Great Salt Lake Valley in 1847. The lush lake-bottom pastures, fertile soils of the bench lands, and streams flowing out of the high Wasatch

Mountains on the east attracted early settlers, who established small farms and close-knit communities. These early settlers established schools, built homes and churches, and created productive farms and shops.

Named after the early pioneer leader, Daniel C. Davis, the County was established as a territory in 1850. The territorial legislature created Davis County in 1852 and designated its County seat at Farmington, midway between boundaries at the Weber River on the north and the mouth of the Jordan River on the south. Westward, the County includes a portion of the Great Salt Lake and its largest island, on which Antelope Island State Park is now located.

During its first half-century, Davis County grew slowly. It supported a hardy pioneer people engaged in irrigation agriculture and raising livestock. The Utah Central Railroad (now the Union Pacific) crossed the County from Ogden on the north to Salt Lake City on the south in 1870 and offered welcome transportation links to bring in manufactured products. This was the beginning of a transition in the County's history that led to mechanized agriculture and a surge of

commerce, banking, and local business, along with improved roads, new water systems, and the electrification of homes and businesses. After the turn of the century, the County's 8,000 residents joined in a chorus of boosterism that encouraged growth, but by 1940 the population was barely 16,000. The small family farms and local businesses could support no greater increase. Consequently, many of the younger generation left for new settlements in northern Utah and nearby Idaho and Wyoming.

As the age of the automobile and interurban railways created greater mobility, many County citizens looked to Ogden and Salt Lake City for employment and cultural enrichment. Market gardens, dairy farms, beef cattle, orchards, and fields of grain and sugar beets continued to sustain local farmers. World War II then introduced a new way of life in Davis County. The establishment of Hill Air Force Base in northern Davis County and other defense installations nearby created a surge of civilian employment. Hill AFB quickly became and remains one of the state's largest employers.

Diversification brought rapid post-war growth. The County doubled in population between 1940 and 1950, and doubled again in the next decade. Between 1960 and 1980, the population more than doubled again, from 65,000 to 147,000. By 1990 the population had reached 188,000 and the 2000 census recorded 238,994. Being the fastest growing of the four major urban communities along the Wasatch Front, Davis County is projected to build out with a population near 390,000 by the year 2030.

Accompanying this growth has been a diversification of population and a new prosperity. Davis County now enjoys a wide mix of people representing many ethnic, cultural, and religious backgrounds. The County has moved from its traditional agricultural dependency to an interlocking network of suburban communities around a core of original towns with closeness in proximity to downtown Salt Lake City. The communications age has tied Davis County to the world. Its citizens today are part of an economic and social pattern that reaches far beyond the County's tiny geographical limits.

Today, many nationally known commercial, industrial, recreational, and service companies provide diversified employment opportunities for residents of Northern Utah. The Freeport Center is the largest distribution center in the State of Utah with more than seven million square feet of covered storage and five million square feet of open storage occupied by more than 70 renowned companies employing some 7,000 employees.

A three-member elected Board of Commissioners is the governing body of Davis County. All Commissioners serve four-year terms, which overlap to enhance continuity for the governing board. Administrative Officers reporting to the Commissioners serve as exempt (appointed) non-merit employees. According to Utah Code 17-53-106, The Commissioners have general oversight to insure compliance with

County rules, policies, and ordinances. Seven other elected officials have authority to direct and supervise their respective elected offices and their Deputies while performing the professional duties to which they were elected.

Commissioners approve the adoption and amendment to the budget; they also serve as the legislative body, the property tax Board of Equalization, and regulate business licensing in the unincorporated areas of the County.

The seven other elected officials, as shown on the organization chart located on page 13; all serve four-year terms and are eligible for re-election in the same county-wide elections as the Commissioners. Chief Deputies serving each of the other elected officials are also exempt (appointed) non-merit employees.

Elected Officials and Administrative Officers are responsible for the daily management of the various services and programs provided by the County. The Clerk/Auditor serves as the chief financial and budget officer of the County and administers the County financial system. The County Treasurer is responsible for the collection, safekeeping, and investing of all County funds. The County Commission, Clerk/Auditor, and Treasurer work together to insure compliance with the Utah Fiscal Procedures Act.

The County provides a diversified range of county-wide services as well as certain municipal type services which are provided only in the unincorporated areas of the County. Examples of county-wide services include the following: General Government services (such as property tax assessing and collecting, auditing, budgeting, elections, marriage licenses, passports, real estate records, surveying, criminal justice services, and ordinance enactment and enforcement), Educational services (such as libraries and agricultural extension), Social services (such as senior programs), Recreation and Tourism services (such as golf courses, tourism and travel facilities, and County Fair activities), County Support services (such as human resources, information systems, finance, purchasing, and facilities management), Public Safety services (such as correctional facilities, emergency 911, Sheriff protection, paramedic, emergency medical, and animal control), Public Health services (such as mental health and substance abuse, clinical, nursing, dental health, vehicle inspection and maintenance, environmental health, and also health education and promotion), and Public Works services (such as flood control and noxious weeds).

Municipal type services include fire protection (delivered by contract), public works (road construction and maintenance), building inspection, and business licenses. These services are funded by property and sales taxes and user fees generated by the citizens of the unincorporated area of the County. They are accounted for in the Special Service Area Fund.

ECONOMIC CONDITION AND OUTLOOK

BUSINESS AND INDUSTRY

In 2009, Davis County's average seasonally adjusted unemployment rate was 5.9 percent, compared to the prior year's rate of 3.3 percent for 2008. This is lower than the State rate of 6.6 percent and favorable to the National rate of 9.3 percent. The County and the State continue to have one of the better labor and business climates in the western United States. The work force is young and well educated and, overall, wages are competitive. Employment in Davis County is distributed among many industries. The County is unique, primarily because of its proportion of total jobs made up by the government. One of Utah's largest employers, Hill Air Force Base, is located within the County. This skews the County's class of workers classification with 29.5 percent of all non-farm jobs being in the government sector, and Hill AFB as the dominant employer employs nearly one-half of all government workers in the County (along with state and local government, mainly schools).

Other larger industry sectors include retail and wholesale trade (15.3 percent), education and health (11.2 percent), and manufacturing (9.6 percent). The unemployment rate has stabilized but there is no sign of it going down. The majority of companies have downsized or reduced costs to weather the economic storm. Businesses are now looking to position themselves when the economy turns around.

Interest rates continue to stay low while the economy remains slow. Mortgage rates are expected to remain between 4.5 to 5.5 percent. Total permit-authorized construction decreased by 25 percent. Permit-authorized construction in the state also fell 25 percent. The average number of construction and manufacturing jobs in the County decreased by 12.8 percent in 2009. The value of total permit authorized construction in the County fell 9.4 percent in 2009 compared to 2008 figures. The total value of Residential building permits issued decreased 24.1 percent. However, the total value of Non Residential building permits remained the same as the year before. The average sales price of existing homes fell by only 5 percent as the number of existing homes sales declined by 20 percent.

In 2009, the County's total sales taxes decreased by \$1.6 million, or about 10 percent. Overall business and construction are seeing a decrease in activity.

The major employers in Davis County are:

BUSINESS	EMPLOYEES
Hill Air Force Base	10,000-14,999
Davis County School District	7,000-9,999
Davis County	1,000-1,999
Lagoon Corporation Inc	1,000-1,999
Lifetime Products Inc	1,000-1,999
Smith's Marketplace Dist.	1,000-1,999
Wal-Mart	1,000-1,999
Albertson's	500-999
Citicorp Credit Services	500-999
Davis Hospital and Medical Center	500-999
Lakeview Hospital	500-999
Lofthouse Bakery Products	500-999
Management & Training Corp	500-999
South Davis Community Hospital Inc	500-999
State of Utah	500-999
Utilitiy Trailer Manufacturing Co.	500-999
Access RV	500-999

TRANSPORTATION AND ACCESSIBILITY

Davis County has superb highway accessibility. Interstate 15 runs north and south through the County, providing easy access to Interstate 80 and other major highways throughout the state. Many major western cities are only a day's haul away by commercial carrier, while many others can be reached in a few days.

The Salt Lake International Airport is readily accessible to all of Davis County. The airport is anchored by Delta Airlines and Southwest Airlines and has a total of 8 airlines operating over 746 scheduled daily departures. Almost 20 million passengers traveled through the airport in 2009 making it the 25th busiest airport in North America and 59th in the world. Several air cargo/express mail services have daily flights in and out of Salt Lake International Airport. They also now provide non-stop service to Paris.

Amenities at the airport include vehicle rental, restaurants, a golf course, news shops, barber and beauty salons, a full service bank, fax machines, free wi-fi, currency exchange, and translation services with ample parking.

In addition to the Salt Lake International Airport, private plane operators enjoy easy access and accommodations to Sky Park Airport, located in southern Davis County.

Rail services in Utah are provided by Southern Pacific and Union Pacific as well as Amtrak. Secondmorning freight service is offered to 90 percent of the western market, and all west coast cities can be served directly by rail from Utah without backtracking. Amtrack provides daily passenger service both east and west. Interstate bus service is provided by Greyhound while the Utah Transit Authority (UTA) provides daily mass transit service in the County and along the Wasatch Front. UTA provides a commuter rail through Davis County with four rail stops within the County.

MAJOR INITIATIVES AND OTHER ACCOMPLISHMENTS

TEAM MANAGEMENT

The County strongly supports the development of the concept of team building. This concept creates a formal working group or team of individuals responsible for similar or related functions within the County. These individuals may report to several different Administrative Officers but have a need to interact with the other members of the team to efficiently and effectively manage their responsibilities.

The Administrative Officers, Information Services Team, Users Service Team, Risk Management Team, Property Tax Team, Facilities Management Team and the Financial Services Team continued to meet and accomplish their annual objectives. As individuals from different departments organize themselves into teams, communication flow is facilitated and issues are addressed and resolved in an atmosphere of unity and productivity.

PUBLIC WORKS FLOOD BONDS

In 2009, the County issued \$27 million of Sales Tax Revenue Bonds for the purpose of completing geological studies and much needed repairs and upgrades to the creeks and drainage systems county-wide. Of these bonds, \$19.5 million were Build America Bonds, part of the Federal Stimulus Program pursuant to the American Recovery and Reinvestment Act of 2009. The County Public Works department has prioritized the systems with the greatest need of repair and will work on these over the next few years. These improvements should help carry heavy runoff and preclude flooding. Projects will include replacing worn-out culverts and pipes and enhancing and enlarging stream channels such as, but not limited to, Kay's Creek, Baer Creek, Mutton Hollow, the North Salt Lake Industrial Drain, Farmington Creek, and the Hooper Draw. Much of the work will be completed in-house, but some of the larger projects will be contracted outside of the County.

HEALTH DEPARTMENT BUILDING

The new Davis County Health Department Building in Clearfield, Utah is currently under construction. The building is a 48,600 square foot, three story design on a four acre site. It is being built to accommodate the increasing health service needs of the growing county. This will give the administrative offices and various divisions of the Davis County Health Department the updated and efficient space they need. These divisions include WIC, Nursing, Environmental Health, Vital Statistics, and Senior Services. The new Health Department Building will also house the independently operated Hometown Clinic which includes medical and dental suites. CRSA Architects is the designer and Wadman Corporation is the general contractor. The total cost of the building is expected to be around \$5.5 million dollars.

VALLEY VIEW GOLF COURSE ADDITION

The Valley View Golf Course Clubhouse Addition began in December of 2008 and was completed in May, 2009. It was constructed in response to the need to provide better tournament hosting and has proven to be very successful in that objective. The half million dollar addition was designed by Design West Architects and construction was completed by Onyx Construction. The project added 2,450 square feet consisting of a large meeting and dining room and additional restrooms. This new meeting and dining room features state of the art audio-visual equipment, fireplace, and spectacular views of the golf course and Layton City. Part of this addition also included converting a previously unheated golf cart garage into a more efficient heated space which will preserve and extend the life of the carts and their batteries.

H1N1 FLU SHOTS

Novel H1N1 influenza ("Swine Flu") was detected in the U.S. in April of 2009. Davis County's first case was reported on May 13, 2009. As the virus continued to move across the country, local health departments geared up for a pandemic – which was declared on June 11, 2009. The Centers for Disease Control and Prevention (CDC) funded the production of the Novel H1N1 vaccine and it was distributed throughout the U.S. through public health agencies. Davis County Health Department prepared and began providing vaccines to Davis County residents in October 2009. Approximately 90,000 vaccinations were administered to Davis County's residents. This resulted in approximately 25% of the population being protected due to vaccinations. The Health Department has also focused on community education messages, mitigation measures, and increasing medical surge capacity in 2009. A second wave of H1N1 began in September, peaked in October and had substantially decreased by the end of 2009. The Davis County Health Department is continuing the vaccination efforts into 2010 in hopes of eliminating an anticipated third wave of pandemic H1N1 influenza.

TAX ADMINISTRATION DEPARTMENT

The Davis County Commission authorized a new Tax Administration Department for the 2009 property tax season. This department, created in July of 2009, is responsible for the administration of property tax appeals in the county. This includes the acceptance of the appeal forms filed by property owners and an initial review for content and completeness of these forms and associated information. In many cases, a decision regarding value adjustment was rendered immediately upon receiving the request. The new department also coordinates the input and responsibilities of the Assessor's Office, the Clerk/Auditor's Office, and the Davis County Commission. One of the goals of the County Commission was to accelerate the appeal process because of the large number of appeals filed in the past two years. Other responsibilities of the new Tax Administration Department include processing various Veteran, Blind, and Indigent Property Tax Abatements for qualifying individuals.

SHERIFF K-9 UNIT

The Davis County Sheriff's office implemented a new K-9 unit in July of 2009. Through community foundations and federal grants, the department was able to acquire three dogs, Jak, Mojo, and Dax, from Alpha K-9 in Bellevue, Nebraska. Later, a fully trained dual purpose Belgium Malinois named Clyde, was donated to the County by Cascade K-9 out of Seattle, Washington. These canines are certified in narcotics detection, patrol, and tracking. These skills have proven to be very valuable to the patrol deputy as the canines get called out for assistance numerous times each day from deputies within our agency and also by other agencies within Davis County. The intimidation factor of the dogs alone is usually enough to apprehend a fleeing criminal without any actual use of force from the dogs. We are proud to have them as part of our Sheriff's Roster.

CORRIDOR PRESERVATION

The Corridor Preservation Fund has been a successful way for Davis County to pay for the future right of way of the West Davis Corridor. Corridor preservation is funded through a motor vehicle tax of \$10 placed on all vehicle registrations. For the first two years of the fund's existence, the State would match purchases at 50%. However, we are no longer in the matching cycle. To date we have spent over \$8 million and secured nearly 100 acres of corridor. The fund will continue to be used to purchase the future West Davis Corridor, popularly known as the North Legacy Highway, until a majority of the property is under State ownership.

FINANCIAL INFORMATION

FINANCIAL REPORTING AND ACCOUNTING STANDARDS

Local government accounting principles are established and promulgated by the Governmental Accounting Standards Board (GASB). This report conforms to all current, relevant pronouncements of GASB, which, taken as a whole, are referred to as "Generally Accepted Accounting Principles" (GAAP).

THE REPORTING ENTITY

This CAFR includes all funds of the County as follows:

DESCRIPTION	FUND TYPE
General Fund	General Government
Paramedic Fund	Special Revenue
Health Fund	Special Revenue
Tourism Fund	Special Revenue
Library Fund	Special Revenue
Flood Control Fund	Special Revenue
Aging Services Fund	Special Revenue
Emergency 911 Dispatch Fund	Special Revenue
Municipal Building Authority Fund	Special Revenue
Special Service Area Fund	Special Revenue
General Obligation Bond Fund	Debt Service
Conference Center Bond Fund	Debt Service
Municipal Building Authority Bond Fund	Debt Service
Davis Conference Center Construction Fund	Capital Projects
Main Campus Construction Fund	Capital Projects
Special Capital Projects Fund	Capital Projects
Capital Projects Fund	Capital Projects
Golf Courses Fund	Enterprise
Jail Commissary Fund	Enterprise
Insurance Fund	Internal Service
Telephone Fund	Internal Service
Buildings and Grounds Fund	Internal Service
County Agency Fund	Agency
Treasurer's Tax Collection Fund	Agency
Employee Benefits Fund	Agency

The CAFR also reports consolidated information of Davis Behavioral Health and Wasatch Integrated Waste Management as related entities of Davis County. Davis Behavioral Health was created in 1983 by the County as a public non-profit organization to provide behavioral and also alcohol and drug services for the residents of Davis County. Wasatch Integrated Waste Management is a regional solid waste energy recovery district organized in 1982 by the County to process solid waste. The "burn plant" as it is commonly known, incinerates solid waste and produces steam that is sold to Hill Air Force Base.

ACCOUNTING SYSTEM AND BUDGETARY CONTROLS

The County operates an integrated budgetary and accounting system that incorporates the adoption of a formal legal budget for each department. The budget is adopted in December each year for the ensuing year.

State statutes define the legal level of budgetary control at the department level. Expenditures should not exceed appropriations at that level. Monthly financial reports are electronically distributed to each department head and/or elected official with a charge that obligations must be closely monitored. The budget is reopened as required (usually twice each year) to consider necessary adjustments.

The modified accrual basis of accounting is used for governmental funds, with revenues recognized when measurable and available. Expenditures are recognized when a fund liability is incurred. These transactions are recorded using the fund accounting approach, where each fund is a distinct entity with a set of self-balancing records.

Automation and modernization of the accounting system have received the strong support of County officials. These efforts continue to move forward as new technology becomes available. As financial reporting requirements change we will be allowed to provide the most current and meaningful accounting information to all users.

Safeguarding assets and providing reasonable assurance that financial transactions are properly recorded requires implementation of adequate internal controls. The County's internal controls are presently accomplishing this objective in all material respects. Further discussion of accounting and budgeting matters may be found in the "Notes to Financial Statements."

CERTIFICATE OF ACHIEVEMENT

The Government Finance Officers Association of the United States and Canada (GFOA) awarded the *Certificate of Achievement for Excellence in Financial Reporting* to Davis County for its Comprehensive Annual Financial Report for the calendar year ended December 31, 2008. This is the sixteenth year in a row that Davis County has received this award.

This prestigious award requires a government unit to publish an easily readable and efficiently organized comprehensive annual financial report that must conform to rigorous program standards. Qualifying reports must satisfy both GAAP and applicable legal requirements.

The Certificate of Achievement program demands that all applicable requirements be met each year the award is given. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate. Our highly qualified and professional staff is dedicated to making the continued receipt of this award possible.

CONCLUSION

This report has been prepared in an effort to provide meaningful data that will be useful in evaluating the financial activity of Davis County. The preparation of this report is a team effort by the County Clerk/Auditor staff in conjunction with department accounting personnel. Their dedicated efforts have made possible the continued improvement of both form and content. We extend our sincere appreciation for their ongoing commitment to excellence in financial reporting and for their continued effort in providing pleasant and efficient services to the citizens of Davis County. The efforts of the County Commissioners, other elected officials, and the department heads and their staff make it possible for the County to continue to cooperatively demonstrate fiscal responsibility and to achieve the highest of standards.

Sincerely,

and lings

Steve S. Rawlings, CGFM Clerk/Auditor

Certificate of Achievement for Excellence in Financial Reporting

Presented to

Davis County Utah

For its Comprehensive Annual Financial Report for the Fiscal Year Ended December 31, 2008

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

INDEPENDENT AUDITORS' REPORT

The Board of County Commissioners Davis County, Utah

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Davis County (the County), as of and for the year ended December 31, 2009, which collectively comprises the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the financial statements of Davis Behavioral Health which is shown as a discretely presented component unit. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for Davis Behavioral Health, is based solely on the reports of such other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County, as of December 31, 2009, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated May 28, 2010 on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and important for assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 20 through 27 and 71 through 77 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's financial statements as a whole. The introductory section, combining and individual nonmajor fund financial statements, and statistical section, are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the financial statements. The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Crane, Christensen + ambrose P.C.

May 28, 2010

INTRODUCTION

The following is a discussion and analysis of Davis County's financial performance and activities for the year ended December 31, 2009. When read in conjunction with the letter of transmittal and the notes to the financial statements, this section's financial highlights, overview and analysis should assist the reader to gain a more complete knowledge of the County's financial performance. Comparative analyses to the previous year's results are provided.

HIGHLIGHTS

Government-wide

• The County's total net assets increased by approximately \$6.4 million or about 5.6 percent over the prior year. The increase is partially attributable to a \$1.1 million increase in weatherization grants, including \$731 thousand in federal stimulus money from the American Recovery and Reinvestment Act (ARRA). An additional portion of the increase resulted from a capital contribution of land valued at \$1.4 million. The remainder was due to the general effect of government-wide revenues exceeding expenses.

Fund Level

- Fund balances in the County's governmental funds increased by \$30 million, or 79.3 percent from the prior year to a total of \$67.9 million. This increase in fund balance was primarily due to the issuance of \$27 million of Sales Tax Revenue and Build America bonds to be used to finance the costs of storm drainage and flood control projects and related improvements.
- Property tax revenues were approximately \$1.1 million (2.5 percent) higher in 2009 than the prior year, primarily due to growth of the property tax base throughout the County.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is an introduction to the County's Basic Financial Statements. The Basic Financial Statements include three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. In addition to the Basic Financial Statements, this report also contains the required supplementary information, additional supplementary information and fund data (including combining statements for non-major funds), and a statistical section.

Government-wide Statements - Reporting the County as a Whole

The Statement of Net Assets and the Statement of Activities beginning on page 32 comprise the government-wide financial statements. These statements provide a broad overview with a long-term focus of the County's finances as a whole and are prepared using the *full-accrual* basis of accounting, similar to private-sector companies. This means all revenues and expenses are recognized regardless of when cash is received or spent, and all assets and liabilities, including capital assets and long-term debt, are reported at the entity level.

The statement of net assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases and decreases in net assets measure whether the County's overall financial condition is getting better or worse. In evaluating the government's overall condition, however, additional non-financial factors should be considered such as the County's economic outlook, changes in its demographics, and the condition of its capital assets and infrastructure.

The statement of activities presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or most of their costs through user fees and charges (*business-type activities*). Davis County's governmental activities include general government, public safety, public health, and public works. The County has two business-type activities – 1) operation of the County's Golf Courses and 2) operation of the Jail Commissary.

The government-wide statements also include information about two *component units*, Davis Behavioral Health (DBH) and Wasatch Integrated Waste Management Inc. (WIWMD). A legally separate entity meets the criteria of a component unit if the County's governing body appoints a voting majority of the organization's governing body and either has the ability to impose the County's will on that organization or that organization may provide specific financial benefits or burden to the County. An organization may also be considered a component unit of the County if the organization is fiscally dependent upon the county or if its relationship is of a nature that it would be misleading to exclude it. The basic criterion to include Davis Behavioral Health's information into the financial statements is that the financial statement may be misleading if it were not included. The basic criterion to include WIWMD as a component unit is that WIWMD is fiscally dependent on the County.

Fund Financial Statements – Reporting the County's Most Significant Funds

The fund financial statements, beginning on page 35, provide detailed information about individual major funds, not the County as a whole. A fund is a group of related accounts that the County uses to keep track of specific resources that are segregated for a specific purpose. Some funds are required by law to exist, while others are established internally to maintain control over a particular activity. All of the County's funds can be divided into three types: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds – Most of the County's basic services are accounted for in governmental funds and are essentially the same functions reported as governmental activities in the government-wide statements. Governmental funds use the *modified accrual* basis of accounting, which measures the flow of current financial resources that can be converted to cash and the balances left at year-end that are available for future spending. This *short-term* view of the County's financial position helps determine whether the County has sufficient resources to cover expenditures for its basic services in the near future.

Proprietary Funds – Proprietary funds are presented using the *full-accrual* basis of accounting. Davis County uses two different types of proprietary funds. *Enterprise Funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The County has two enterprise funds – the Golf Course and Jail Commissary Funds. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County maintains three internal service funds – the Insurance, Telephone, and Building and Grounds Funds. Because those services predominantly benefit governmental rather than business-type activities, they are included with *governmental activities* in the government-wide statements.

Fiduciary Funds – Fiduciary funds account for resources held for the benefit of parties outside the government. Fiduciary funds use *full-accrual* accounting but are not included in the government-wide statements because the assets in those funds are not available to finance the County's own programs.

Reconciliation between Government-wide and Fund Statements

The financial statements include schedules on pages 37 and 39 that reconcile the amounts reported for governmental activities on the government-wide statements (full-accrual accounting, long-term focus) with amounts reported on the governmental fund statements (modified accrual accounting, short-term focus). Following are some of the major differences between the two statements:

- Capital assets and long-term debt are included on the government-wide statements but are not reported on the governmental fund statements.
- Capital outlays result in capital assets on the government-wide statements but are expenditures on the governmental fund statements.
- Bond proceeds result in liabilities on the government-wide statements but are other financing sources on the governmental fund statements.
- Certain tax revenues that are earned but not yet available are reported as revenue on the government-wide statements but are deferred revenue on the governmental fund statements.

Notes to the Financial Statements

The notes beginning on page 48 provide additional schedules and information that are essential to a complete understanding of the financial statements. The notes apply to both the government-wide financial statements and the fund financial statements.

FINANCIAL ANALYSIS OF THE COUNTY AS A WHOLE

Net Assets

The largest component of the County's net assets, \$54.8 million or 45.5 percent, reflects investments in capital assets (land, buildings, equipment, construction-in-progress, roads, and other infrastructure) less all outstanding debt that was issued to buy or build those assets. As capital assets, these resources are not available for future spending, nor can they all be readily liquidated to pay off the related liabilities. Resources needed to repay capital-related debt must be provided from other sources. Although capital assets increased by just over \$4 million, the amount of net assets invested in capital assets, net of related debt, decreased by \$21 million as the result of the issuance of \$27 million of Flood Control bonds less current year debt payments and the \$4 million in capital purchases less depreciation.

Restricted net assets comprised \$40.8 million or 33.8 percent of total net assets and are subject to external restrictions on how they may be used. Capital projects accounted for almost \$36 million of the total restrictions with \$27 million of that being restricted specifically for flood control projects. B-Roads accounted for \$726 thousand of the restriction, while Debt Service restrictions accounted for another \$4.1 million. Unrestricted net assets was approximately \$26.2 million for governmental activities at December 31, 2009. Unrestricted net assets for business-type activities decreased by approximately \$476 thousand during 2009.

Changes in Net Assets

The County's combined net assets increased by approximately \$6.4 million or 5.6 percent from the prior year. The increase is primarily due to the increase in Net Assets of governmental activities. Net assets of business-type activities increased \$26 thousand which represents a 0.6 percent increase from its prior ending balances. Before transfers out, the County's business-type activities (the Golf Course and Jail Commissary) had an increase in net assets of \$292 thousand. Transfers to the General Fund of \$266 thousand were comprised of \$250 thousand from the Commissary Fund and \$16 thousand from the Golf Fund for administration charges. The following charts and schedules summarize the County's revenues and expenses.

Governmental Activities

Total tax revenues decreased during 2009. Although property taxes increased by approximately \$169 thousand (about 0.4 percent), sales taxes were down by approximately 10 percent. The decrease in sales tax revenues was due to a downturn in the economy that was felt throughout the Nation. The table below shows the comparison of revenue and expenses of governmental activities and business type activities from 2009 compared to 2008.

Davis County Changes in Net Assets For the Years Ended December 31,

The table below shows to what extent the County's governmental activities relied on taxes and other general revenues to cover all of their costs. For 2009, these programs generated \$36.7 million or 41.5 percent of their total expenses through charges for services and grants. Program revenues increased \$3 million or 8.8 percent over 2008. Taxes and other general revenues covered the remaining 58.5 percent of expenses.

The most significant increase in program revenues during 2009 was in the Public Health activity, where program revenues increased by \$1.7 million or 18 percent. This increase was primarily due to a one-time capital contribution of land valued at \$1.4 million for the construction of the new Davis County Health Department Building. Public Safety revenues increased by \$1.3 million (10.6 percent) as the result of a reclassification of Emergency 911 Dispatch revenues that were determined to belong in Public Safety rather than in General Government where the revenues had been reported in prior years. Despite the reclassification, General Government revenues remained stable primarily as a result of a \$1.1 million increase in weatherization grants, including \$731 thousand in federal stimulus money from the American Recovery and Reinvestment Act (ARRA).

Governmental activities expense increased \$4.1 million as compared to 2008, or 4.8 percent. Approximately \$3.7 million of this increase is due to modest increases in numbers of employees and employee compensation costs. The adjustment in compensation was made in order for the County to be more comparable to other entities within the geographical area.

Davis County Net Cost of Governmental Activities For the Year Ended December 31,

Business-type Activities

In 2009, Davis County's Golf Courses generated an operating loss of approximately \$296 thousand. In addition, there was a \$16 thousand transfer out to the General Fund for administrative expenses related to the golf courses. Revenues were lower than the prior year by almost \$193 thousand, mainly because the café located at Valley View is now under independent management so that the County now receives only 10 percent of the food sales revenue. Expenses were slightly lower than the prior year likewise due to the elimination of costs relative to café operations and management.

The Jail Commissary continues to generate sufficient revenues to cover its operating costs. Net income for 2009 was approximately \$588 thousand, an increase of 21.2 percent over the previous year's net income of \$485 thousand. Of this amount, \$250 thousand was transferred to the General Fund to help cover Jail operations. Commissary revenue increased by \$231 thousand while expenses increased by \$120 thousand.

CAPITAL ASSETS AND LONG-TERM DEBT ADMINISTRATION

Capital Assets

Davis County added approximately \$8.9 million in new capital assets during 2009, of which approximately \$3.1 million was related to the new Davis County Health Department Building and Senior Center. An additional \$1.6 million was attributable to flood control projects and \$1.1 million was for new roads. Other general capital purchases for buildings, equipment, and improvements comprised the remaining \$3.1 million. Additional information can be found in Note 5 of the Notes to the Financial Statement beginning on page 58.

Long-term Debt

Total bonded debt outstanding at December 31, 2009 was \$67.6 million, as compared to \$42.1 million at the end of the prior year. This \$25.5 million (60.6 percent) increase from 2008 is attributable to the net effect of issuing \$31.7 million (net of premiums and deferred amounts on refunding) in flood control and refunding bonds and the reduction in principal balances from the defeasance of \$4.5 million in sales tax revenue bonds and from making required debt service payments of \$1.7 million. The balance on the County's lease/purchase agreement was also reduced by \$478,359 in principal payments. The County had the following long-term debt outstanding. Additional information can be found in Note 7 of the Notes to the Financial Statement beginning on page 59.

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

Fund Balances

At December 31, 2009, Davis County's governmental funds reported combined fund balances of approximately \$67.9 million. Of this amount, approximately \$0.7 million is reserved for B-Roads. The following chart presents the County's 2009 ending fund balances.

Davis County Governmental Fund Balances For the Year Ended December 31,

			2009	2008	% Change	
	Reserved		Unreserved	Total	Total	from prior year
General Fund	\$	_	\$ 16,298,104	\$ 16,298,104	\$ 18,286,835	-10.9%
Health Fund		-	1,051,102	1,051,102	538,192	95.3%

Total	\$	725,764	\$ 67,175,195	\$ 67,900,959	\$ 37,868,958	79.3%

General Fund

During 2009, the fund balance in the General Fund decreased \$2 million or 10.9 percent. Although General Fund sales taxes decreased by \$1.1 million or 9.9 percent, property tax revenues for the General Fund increased by a corresponding \$1.1 million or 3.2 percent. Overall, the total General Fund revenues decreased by \$306 thousand or 0.5 percent. This decrease was primarily the result of a decline in the amount of grant revenues received in 2009.

Total General Fund expenditures increased by approximately \$3.2 million or 6.8 percent from 2008. Approximately \$2.7 million of this increase is due to modest increases in numbers of employees and employee compensation costs. The remaining increase in expenditures was attributable to normal operational increases throughout the General Fund.

For the year ended December 31, 2009, transfers in were approximately \$1.5 million. A transfer back of some excess revenues from the paramedic fund accounted for \$1.2 million transferred in. Excellent management of the Jail Commissary and the profit sharing arrangement with Canteen Food Services and a transfer from the Golf Fund for administrative expenses accounted for the remaining balance of transfers in.

The Commission authorized a total of approximately \$14.5 million in transfers out of the General Fund. This is an increase of approximately \$5.8 million over 2008. \$5 million was transferred to the Capital Projects Fund for construction projects. The remaining \$9.5 million went to support County operations in Health Services, Aging Services, Flood Control, Emergency 911 Dispatch, and Paramedics. A complete list of transfer activity can be found in Note 4 of the Notes to the Financial Statements.

General Fund Budgetary Highlights

Davis County prepares its budget according to state statutes, as described more fully in Note 1.G. The most significant budgeted fund is the General Fund. The County amended the General Fund budget during the year to meet the needs of the departments as issues arose. Significant changes to the original adopted budget included the following:

- The General Fund's property tax revenue budget was increased overall by approximately \$1.4 million to better match the revenues projected through the certified tax rate process.
- Various minor budget changes, from normal day to day activities to meet the needs of the departments, made up the change of approximately \$900 thousand from original to final budgets on the expenditure side.
- Budgeted transfers out of the General Fund were increased by \$3.9 million to help fund construction projects.

Actual General Fund revenues were \$62 million, which was \$204 thousand or approximately 0.3 percent above the final budgeted revenues. As the result of fiscally responsible management, General Fund expenditures were approximately \$51 million, which was \$2.7 million (5.1 percent) below the final budgeted expenditures.

Other Major Governmental Funds

During 2009, the County's contribution to the Health department increased from approximately \$2.2 million in 2008 to \$2.3 million in 2009. Fund balance at year end was approximately \$1.1 million, an increase of approximately \$513 thousand (95.3 percent) over the prior year. Health Fund total revenues increased by \$371 thousand (3.8 percent) while expenditures increased by \$427 thousand (3.7 percent) from the previous year.

The fund balance in the Library Fund increased approximately \$540 thousand (24.8 percent) to \$2.7 million. This was due to a combination of planned tax surplus revenue for future library capital projects and fiscally responsible management.

The fund balance in the Flood Control Fund increased \$27.1 million (2,190.6 percent) to \$28.4 million. This increase in fund balance was primarily due to the issuance of \$27 million of Sales Tax Revenue and Build America bonds to be used to finance the costs of storm drainage and flood control projects and related improvements.

The fund balance in the Capital Projects Fund increased \$743 thousand (13.5 percent). This was primarily the result of transfers in of \$5 million exceeding transfers out of \$4.3 million. The ending fund balance of approximately \$6.2 million is to be used for future capital projects.

Proprietary Funds

The County's enterprise funds provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net assets of the Golf Courses Fund at the end of the year amounted to a negative \$1.9 million, and those for the Commissary amounted to \$620 thousand. The total change in net assets for both funds was a \$310 thousand decrease for Golf and a \$337 thousand increase for the Commissary. Other factors concerning the finances of these two funds have already been addressed in the discussion of the County's business-type activities.

OTHER MATTERS

Changes that may impact Davis County's future financial position include the following:

- The Veteran Abatement's ceiling was increased to \$228,505 of taxable value for personal and primary residence in 2009. This amount will continue to be adjusted in the future by the consumer price index (CPI) of the preceding year. For 2010, the Veteran Abatement's ceiling will be \$228,931.
- Legislation was implemented during 2009 which modified personal property tax due date to May 15. Because of this change, the certified tax rate calculation formula needed to be modified to use the previous year's year-ending values as the current year values. The legislative change and also eliminated any Board of Equalization adjustment percentages related to personal property. This legislation took effect on January 1, 2009.
- Legislative changes enacted in 2009 allow cities to create "Community Development Areas" (CDAs). Unlike a Redevelopment Area (RDA), a finding of blight is not necessary for a CDA. In addition, CDAs allow entities servicing the area to participate by a vote of the governing board to opt in a certain percentage of the entity's future tax increments for a specified numbers of years. The taxes calculated from the increments then goes to the developer for infrastructure and other necessary improvements in the area.

REQUESTS FOR INFORMATION

This financial report is designed to provide our citizens, taxpayers, and creditors with a general overview of Davis County's finances and to demonstrate the County's accountability for the money it receives. It is available on the County's Clerk/Auditor's website at <u>www.daviscountyutah.gov</u>. Questions concerning any of the information in this report or any other matters related to the County's finances should be addressed to:

Governmental Fund Financial Statements

General Fund

This fund is the principal operating fund of the County. It accounts for all financial resources of the government except those required to be accounted for in another fund.

Health Special Revenue Fund

This special revenue fund accounts for taxes levied, grants, and other revenues and expenditures by the County to provide health services.

Library Special Revenue Fund

This special revenue fund accounts for the operation of the County's main library and its six branches. The Library Fund's principal revenue source is property taxes.

Flood Control Special Revenue Fund

This special revenue fund accounts for all activities of the Public Works Department that relate to the flood channels managed by the County.

Capital Projects Fund

This fund accounts for funds accumulated and spent for routine capital projects.

Nonmajor Governmental Funds

Nonmajor governmental funds are presented individually beginning on page 81.

EXHIBIT D

RECONCILIATION OF THE BALANCE SHEET - GOVERNMENTAL FUNDS TO THE STATEMENT OF NET ASSETS DECEMBER 31, 2009

Total fund balancesgovernmental funds		\$	67,900,959		
Amounts reported for governmental activities in the statement of net assets are different because:					
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. These assets consist of:					
Land and related non-depreciable assets \$ Construction-in-progress Depreciable infrastructure Buildings, equipment, and other depreciable assets Accumulated depreciation Total capital assets	34,020,437 1,565,948 21,334,165 107,593,234 (46,694,630)		117,819,154		
Deferred charges - MBA payments			791,000		
Some of the county's revenues will be collected after year-end but are not available soon enough to pay for the current period's expenditures and therefore are deferred in the funds.		2,108,764			
An internal charge between the governmental and business-type activities is not recorded at the f	fund level.		(19,190)		
Internal service funds are used by management to charge the costs of certain activities to individual funds. The assets and liabilities of those internal service funds that primarily benefit governmental entities are included with governmental activities in the statement of net assets.		4,201,265			
Bond issuance costs are reported as current expenditures at the fund level, but are deferred and amortized over the life of the bonds in the statement of net assets.			317,434		
Some liabilities are not due and payable in the current period and therefore are not reported in the funds. Those liabilities consist of:					
Bonds and lease/purchase agreement Net OPEB obligation Compensated absences Accrued interest on bonds Total long-term liabilities	(69,051,143) (3,853,923) (2,939,395) (933,444)		(76,777,905)

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED DECEMBER 31, 2009

Net change in fund balancestotal governmental funds	\$ 30,032,001
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Also, donated capital assets are recorded as revenue in the statement of activities. This is the amount by which capital purchases (\$6,651,584) and donated capital assets (1,382,055) exceeded depreciation (\$4,412,342) during the current period.	3,621,297
In the statement of activities, only the gain or loss on the sale of capital assets is reported, whereas in the governmental funds, the proceeds from the sales increase financial resources. Thus, the change in net assets differs from the change in fund balance by the cost of the assets sold.	(13,186)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the fund statements.	(228,827)
Expenditures are recognized in the governmental funds when paid or due for interest on long term debt and bond issuance costs, but the statement of activities is presented on the accrual basis and expenses and liabilities are reported when incurred, regardless of when financial resources are available or expenses are paid or due. This is the amount by which unamortized deferred bond issuance costs (\$317,434) and the net amortization on bond premiums and refundings (\$1,131) exceeded the increase in accrued interest on bonds payable (\$261,238) during the year.	57,327
The liabilities for OPEB and compensated absences are not recorded in the governmental funds, but are reported in the statement of net assets. This is the current year change in OPEB (\$1,906,316) and compensated absences (\$212,620), reported as adjustments to expense in the statement of activities.	(2,118,936)
Bond proceeds provide current financial resources to governmental funds by issuing debt which increases long-term liabilities in the statement of net assets. Repayment of debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount by which bonds issued (\$31,925,000) plus premiums (\$454,620) exceeded debt service retirements (\$2,190,359) and refunding payments (\$5,178,147).	(25,011,114)
Portion of deferred charges applicable to the current period-MBA payments	(113,000)
The change in internal balances between the governmental activities and the business-type activities relating to internal service funds are reflected in governmental activities but not in the governmental funds.	1,473
Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue of internal service funds is reported with governmental activities.	 162,740
Change in net assets of governmental activities	\$ 6,389,775

www.daviscountyutah.gov

Proprietary Fund Financial Statements

Golf Course Fund

This fund accounts for the operation and financial resources of the two county-owned golf courses - Davis Park and Valley View Golf Course. Revenues come from green fees and other charges to users of the facilities.

Jail Commissary Fund

This fund accounts for the operations of a commissary available to the County Jail inmates.

Governmental Activities – Internal Service Funds

These funds account for certain activities that are charged to the other departments on a cost-reimbursement basis. The County maintains internal service funds for Insurance, Telephone, and Buildings and Grounds.

EXHIBIT I

Fiduciary Fund Financial Statements

Agency Funds

These funds accounts for assets held by the County as an agent for other governments or organizations. These funds are custodial in nature and do not involve measuring the results of operations. Individual agency funds are presented in Supplemental Schedule 19 beginning on page 104.

STATEMENT OF FIDUCIARY ASSETS AND LIABILITIES AGENCY FUNDS DECEMBER 31, 2009

ASSETS

Cash and cash equivalents Accounts receivable	\$ 70,632,184 648,175
TOTAL ASSETS	\$ 71,280,359
LIABILITIES	

Due to individuals, organizations, and	
other governments	\$ 71,280,359

Under paragraph 110 of GASB 34, agency funds should not be reported in the statement of changes in fiduciary net assets. Davis County only has agency funds in the Statement of Fiduciary Net Assets. Thus, no Statement of Changes in Fiduciary Net Assets is required.

For the Fiscal Year Ended December 31, 2009

INDEX TO THE NOTES TO THE FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Davis County (the County) conform in all material respects to generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). Preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements.

The following is a summary of the County's significant accounting policies.

A. Reporting Entity

The County is incorporated under the constitutional provisions of the State of Utah. The County operates under a Commission form of government where the three-member elected Commission has budgetary authority over all county departments and is accountable for all fiscal matters. County property taxes and sales taxes fund a significant portion of the costs of providing services to citizens including public safety, public health, judicial services, public works, social services, tourism promotion, libraries, assessing and collecting property taxes, and general administrative services.

The Comprehensive Annual Financial Report (CAFR) of the County includes the financial statements for all activities of the County (referred to as the "primary government" for reporting purposes) and its "component units". Component units are separate legal entities for which the County is considered to be financially accountable. The decision to include a potential component unit in the reporting entity was made by applying criteria set forth in GASB Statements 14 and 39. The primary criteria for including a board or agency in the CAFR is financial accountability, meaning the County appoints a majority of an organization's governing body *and* either 1) the County can impose its will on the organization, or 2) the organization has the potential to provide specific financial benefits to, or impose specific financial burdens on the County. Other criteria include whether a board or agency is fiscally dependent on the County or whether the relationship with the organization is such that it would be misleading to exclude it from the County's financial statements.

Blended component units, although legally separate entities, are in substance part of the government's operations. They are reported as part of the primary government and blended with the appropriate funds. Discretely presented component units are reported in separate columns in the government-wide financial statements to emphasize that they are legally separate from the County.

Blended Component Units

The Municipal Building Authority of Davis County is governed by a three-member board comprised of the County Commissioners. Its sole purpose is to finance public facilities. Activities for the Municipal Building Authority are blended with the County's special revenue funds and debt service funds. Separate financial statements are not issued or required for the Authority.

The Municipal Building Authority is considered to be a blended component unit because the governing body is the same as the governing body of Davis County.

Discretely Presented Component Units

Davis Behavioral Health (DBH) - Although the County is named as the legal behavioral health authority by State law, the County has contracted with DBH to deliver these services. DBH provides complete evaluation and treatment for behavioral health and substance abuse. The County provides significant support to these behavioral health services. Payments during 2009 were \$1,242,808 and pass through grants were \$6,094,971. Related party items at December 31, 2009 consisted of \$665,094 accounts payable from the County to DBH.

DBH has been determined to be a discretely presented component unit of the County. DBH is a nonprofit corporation exempt from federal tax under Section 501(c)(3) of the Internal Revenue Code. The basic criterion for including DBH as a component unit is the financial statements may be misleading if Davis Behavioral Health were not included. Separate financial statements for DBH may be obtained from Davis Behavioral Health, 291 South 200 West, Farmington, Utah 84025.

For the Fiscal Year Ended December 31, 2009

Wasatch Integrated Waste Management District (WIWMD) – Wasatch Integrated Waste Management District (WIWMD) is a regional refuse incinerator. It serves the entire area of Davis County (except Bountiful City) and Morgan County. Energy created from the refuse incineration is sold to Hill Air Force Base in the form of steam. WIWMD is a special service district created by the County to construct and operate the waste to energy incinerator plant.

WIWMD has been determined to be a discretely presented component unit of the County. The County has a minority position in the management of WIWMD. Only three of the nineteen trustee positions are held by the County Commission. The basic criterion for including WIWMD as a component unit is that WIWMD is fiscally dependent on the County. The County Commission created WIWMD and has the authority to dissolve the entity. Separate financial statements for WIWMD may be obtained from Wasatch Integrated Waste Management District, 650 East Highway 193, Layton, Utah 84041.

The presentations for both Davis Behavioral Health and Wasatch Integrated Waste Management District are as of their fiscal year-ends, June 30, 2009.

The County Commissioners are also responsible for appointing or approving the members of the boards of other organizations, but the County's accountability for these organizations does not extend beyond making the appointments.

B. Government-wide and Fund Financial Statements

The County's basic financial statements consist of both government-wide statements and fund statements. The government-wide statements focus on the County as a whole, while the fund statements focus on individual funds.

Government-wide Financial Statements

The government-wide statements present information on all non-fiduciary activities of the primary government and its component units. Primary government activities are distinguished between *governmental* and *business-type* activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. The effects of interfund activity have been eliminated from the government-wide statements except for the residual amounts due between governmental and business-type activities.

The *Statement of Net Assets* presents the County's non-fiduciary assets and liabilities, with the difference reported as net assets. Net assets are restricted when constraints placed upon them are either externally imposed or are imposed by constitutional provisions or enabling legislation. The *Statement of Activities* demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function. The County does not allocate general government (indirect) expenses to other functions. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function; and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other revenues not meeting the definition of program revenues are reported as general revenues.

Fund Financial Statements

The financial transactions of the County are recorded in individual funds. A fund is a separate accounting entity with a selfbalancing set of accounts. Fund accounting is used to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. Separate financial statements are provided for *governmental*, *proprietary*, and *fiduciary funds*, even though the latter are excluded from the government-wide financial statements. For governmental and enterprise funds, the emphasis is on *major funds*, with each displayed in a separate column.

The County reports the following major governmental funds:

- **General Fund** This fund is the principal operating fund of the County. It is used to account for all financial resources not required to be accounted for in another fund.
- Health Fund This special revenue fund accounts for all activities of the County Health Department.
- Library Fund This special revenue fund accounts for the operations of the County's main library and six branches.

DAVIS COUNTY, UTAH NOTES TO THE FINANCIAL STATEMENTS For the Figuel Vacr Ended December 21, 2000

For the Fiscal Year Ended December 31, 2009

- **Flood Control Fund** This special revenue fund accounts for all activities of the Public Works Department that relate to the flood channels managed by the County.
- Capital Projects Fund This fund accounts for funds accumulated and spent for routine capital projects.

The County's nonmajor governmental funds account for specific revenue sources that are legally restricted to expenditures for specific purposes. Funds included are Tourism, Aging Services, Special Services Area, Emergency 911 Dispatch, Paramedic, Municipal Building Authority (MBA) Operations, General Government Debt Service, MBA Debt Service, Conference Center Debt Service, Davis Conference Center Expansion Capital Projects, Main Campus Construction Capital Projects, and Special Capital Projects funds. The nonmajor funds are grouped together in a single column in the basic financial statements, and they are displayed individually in the combining statements.

The County reports the following proprietary funds:

- Golf Courses Fund This major enterprise fund accounts for the operations of the County owned golf courses.
- Commissary Fund This nonmajor enterprise fund accounts for the sale of items available to inmates in the jail.
- Internal Service Funds These funds account for the financing of services provided by one department or agency to other departments or agencies of the County on a cost-reimbursement basis. The County maintains internal service funds for risk management (insurance), telephone systems, and buildings and grounds operations. Internal service funds are reported in a single column on the proprietary fund statements and are combined with governmental activities on the government-wide statements. They are also displayed individually in the combining statements.

The County reports the following fiduciary funds:

- **County Agency Fund** This fund accounts for the receipt and disbursement of monies passed through the County to other entities.
- **Treasurer's Tax Collection Agency Fund** This fund accounts for the collection and disbursement of property taxes for all taxing entities in Davis County.
- **Employee Benefits Agency Fund** This fund accounts for monies held by the County in the payroll process until paid out for taxes, insurances, bonds, etc.

C. Measurement Focus and Basis of Accounting

The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when the related liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Other taxes and fees are recognized in the year in which the related sales or other activity has occurred. Grants and similar items are recognized as revenue when all eligibility requirements have been met.

The proprietary fund statements are also prepared using the economic resources measurement focus and the accrual basis of accounting. Fiduciary funds do not have a measurement focus due to their custodial nature, but are prepared using the accrual basis of accounting. Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues generally result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating items, such as interest expense and investment earnings, result from non-exchange transactions or ancillary activities.

For government-wide and enterprise fund financial statements, the County follows all Financial Accounting Standards Board (FASB) Statements and Interpretations, APB Opinions, and Accounting Research Bulletins issued on or before November 30,

For the Fiscal Year Ended December 31, 2009

1989 unless those standards conflict with or contradict a GASB pronouncement. The County has elected not to follow privatesector guidance subsequent to that date.

The governmental fund financial statements are prepared and reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. "Measurable" means that amounts can be reasonably determined within the current period. Expenditures are generally recorded when the related liability is incurred, as under accrual accounting. More specific details concerning revenues and expenditures can be found below in section E.

D. Assets, Liabilities, and Fund Balances/ Net Assets

Following are the County's significant policies regarding recognition and reporting of certain assets, liabilities, and equity.

Cash and Investments

Cash and cash equivalents consist primarily of demand deposits with financial institutions and short-term investments with original maturities of three months or less from the purchase date. Investments include non-pooled investments and certificates of deposit with original maturities greater than three months. All cash equivalents and investments are stated at fair value except where there is no material difference between cost and fair value.

Accounts Receivable

Receivables from other governments are reasonably assured; accordingly, no allowance for uncollectible accounts has been established.

Taxes Receivable

Taxes receivable include accrued amounts for sales taxes and delinquent property taxes. Property taxes attach as an enforceable lien on property on January 1st of each year. Taxes are levied on property owners in July and are payable by November 30th. The County bills and collects property taxes for all taxing entities within the county through the Treasurer's Tax Collection Agency Fund. Collections are periodically distributed to the taxing entities, with final settlement due March 31st of the subsequent year. The County records a receivable and deferred revenue for delinquent taxes, but no allowance for doubtful accounts is made as uncollected taxes are deemed to be substantially collectible or recoverable through foreclosure.

Inventories and other assets

Inventories are valued at cost using the first-in, first out (FIFO) method and are accounted for under the consumption method.

Certain payments to vendors for goods and services reflect costs applicable to future accounting periods and are recorded as a component of other assets in both the government-wide and fund financial statements.

Capital Assets

The County defines capital assets as assets with an initial cost of \$5,000 or more and an estimated useful life of more than one year. Such assets are recorded at historical cost or estimated historical cost where historical cost information is not available. Donated capital assets are recorded at estimated fair value on the date of donation.

Capital assets purchased by governmental funds are recorded as expenditures in the governmental fund statements. Interest expense for capital asset construction related to governmental activities is not capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized. Infrastructure improvements, buildings, and equipment are depreciated using the straight-line method over the following estimated useful lives:

Asset Class	Years
Infrastructure	20 - 30
Buildings	40
Equipment	5 - 10

For the Fiscal Year Ended December 31, 2009

Capital assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements.

Compensated Absences

County employees accrue vacation leave up to a maximum of 360 hours according to the following schedule:

Years of	Hours Accrued
Service	Per Pay Period
0 - 5 years	4.00 (13 days per year)
6 - 10 years	4.93 (16 days per year)
11 – 15 years	5.85 (19 days per year)
Over 15 years	6.77 (22 days per year)

Employees are allowed to carry up to 360 hours of unused vacation leave into the next calendar year, and all unused vacation leave is paid to employees upon termination. Employees may also earn compensatory time but only at the discretion of the employee's supervisor. The rate is one and one-half hours for each hour worked, with a maximum of 80 hours that can be accrued.

Vacation and compensatory leave are recorded as an expenditure when used in governmental funds and as an expense when earned in proprietary funds and in the government-wide statements. A liability for unused vacation and compensatory leave is recorded in the government-wide Statement of Net Assets and proprietary funds.

Permanent full-time employees accrue sick leave at a rate of 3.7 hours for each two-week pay-period while part-time merit employees accrue sick leave at a pro-rated portion. There is no limit to the amount of sick leave accumulated. Once each year an eligible employee can convert 1/3 of that year's unused sick leave to vacation hours or pay. Sick leave is recorded as an expenditure/expense when used in all funds, and no liability is recorded for unused sick leave.

Upon retirement, the County may pay the employee up to 1/3 of unused accumulated sick leave hours. The employee may also use this amount to acquire health insurance. The County may also pay for premiums to maintain health and dental insurance coverage.

Long-term Obligations

In the government-wide statements and proprietary fund statements, long-term debt and other long-term obligations are reported as liabilities. Bond premiums and discounts, defeasance costs (the difference between the carrying amount of defeased debt and its reacquisition price in bond refunding), and issuance costs are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount and deferred defeasance amounts.

In the governmental fund financial statements, bond premiums, discounts, and issuance costs are recognized in the current period. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures. The face amount of debt issued is reported as other financing sources.

Net Assets/Fund Balances

The difference between assets and liabilities is *net assets* on the government-wide and proprietary fund financial statements and *fund balance* on the governmental fund statements. Net assets are divided into invested in capital assets (net of related debt), restricted, and unrestricted. Net assets are reported as restricted when constraints are placed upon them by external parties or are imposed by constitutional provisions or enabling legislation.

In the governmental fund statements, fund balances are classified as reserved or unreserved. Reserves represent those portions of fund balance that are not appropriable for expenditure or are legally segregated for a specific future use. Unreserved fund balances are available for future appropriation, though some portions may be designated to represent management's tentative plans for specific future uses.

For the Fiscal Year Ended December 31, 2009

E. Revenues and Expenditures/Expenses

Following are the County's significant policies related to recognition and reporting of certain revenues and expenditures/expenses:

Revenue Availability

Under the modified accrual basis of accounting, revenues are considered to be available when they are collected within the current period or expected to be collected soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers property tax revenues to be "available" if they are collected by the Treasurer's Tax Collection Agency Fund before year-end. Grants and similar items are recognized as revenue when all eligibility requirements have been met. All other revenues, including sales taxes, are considered to be available if they are collected within 60 days after year-end.

Expenditure/Expense Recognition

In governmental funds, expenditures are generally recorded when the related liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences, OPEB, and claims and judgments, are recorded only when payment is due. Capital asset acquisitions are reported as expenditures.

In proprietary funds and government-wide statements, expenses are recorded when the related liability is incurred. Proprietary funds distinguish operating expenses from nonoperating expenses. Operating expenses generally result from providing services in connection with the fund's principal operations. When an expense is incurred for purposes for which both restricted and unrestricted resources are available, the County generally uses restricted resources first, then unrestricted resources.

F. Interfund Activity and Balances

Government-wide Statements

In general, eliminations have been made to minimize the double counting of internal activity, including internal service fund type activity. However, interfund services provided and used between different functional categories have not been eliminated in order to avoid distorting the direct costs and program revenues of the applicable functions. Transfers between governmental and business-type activities are reported at the net amount in the government-wide statement of activities. Interfund receivables and payables have been eliminated from the Statement of Net Assets, except for the residual amounts due between governmental and business-type activities, which are shown as "internal balances" and offset each other to result in a zero balance it the total column.

Governmental Fund Statements

Interfund transactions for goods and services provided and used are reported as revenues and expenditures/expenses in the funds involved. Cash transfers between funds of the County are reported as other financing sources and uses in the governmental fund statements.

G. Budgeting and Budgetary Control

Annual budgets are prepared and adopted before December 31 for the calendar year commencing the following January 1 in accordance with the Uniform Fiscal Procedures Act for Utah Counties. Once a budget has been adopted, it remains in effect until it has been formally revised. If any obligations are contracted for in excess of the adopted budget, they are not a valid or enforceable claim against the County. Budgets are adopted on a basis consistent with generally accepted accounting principles.

Adopting the Annual Budget

Each fall, the County Clerk/Auditor submits a tentative operating budget to the County Commission for the calendar year commencing the following January 1st. The operating budget includes proposed expenditures and the means of financing them. The tentative operating budget is reviewed and tentatively adopted by the County Commission on or before November 1st.

Prior to December 31, the County Commission sets a date for a public hearing at which time the taxpayers' comments are heard. Copies of the proposed budget are made available for public inspection ten days prior to the budget hearing. After the

For the Fiscal Year Ended December 31, 2009

budget hearing, the tentative budget, with any amendments is legally enacted through passage of a resolution. A copy of the budget is certified by the Clerk/Auditor and filed with the State Auditor within thirty days of adoption. A copy of the budget is available to the public after adoption.

Control of budgeted expenditures is exercised, under state law, at the department level. Administrative control is maintained through detailed line-item budgets for all departments. All appropriations lapse at the end of the calendar year.

Budgets for the General Fund, special revenue, debt service, and capital projects funds are legally required and are prepared and adopted on the modified accrual basis of accounting. Budgets for proprietary funds are not legally required.

Modifying the Adopted Budget

Transfers of unexpended appropriations from one expenditure account to another in the same department can be made by consent of the department heads. Transfers of unexpended appropriations from one department to another department, as well as budget reductions for any department, may be made with consent of the Commission. Expenditure appropriations of the General Fund may be increased by resolution only after a public hearing. Any other fund appropriation may be increased after giving public notice that the County Commission will consider such a matter. Notice must be published seven days in advance of the meeting to consider the action. During 2009, the County modified various budgets using the above procedure.

NOTE 2. DEPOSITS AND INVESTMENTS

Deposits and investments for Davis County are regulated by the Utah Money Management Act (*Utah Code*, Title 51, Chapter 7, "the Act") and by rules of the Utah Money Management Council ('the Council"). Following are discussions of the County's exposure to various risks related to its cash and investment activities.

A. Custodial Credit Risk

Deposits. Custodial credit risk for deposits is the risk that in the event of a bank failure, the County's deposits may not be recovered. The County's policy for managing custodial credit risk is to comply with the Money Management Act. The Act requires all deposits of County funds to be in a *qualified depository*, as defined as a financial institution whose deposits are insured by an agency of the federal government and which is certified by the Utah State Commissioner of Financial Institutions as meeting the requirements of the Act and complying with rules of the Utah Money Management Council.

The County's deposits in financial institutions in excess of the amounts insured by the Federal Deposit Insurance Corporation (FDIC) or National Credit Union Association (NCUA) are uninsured and are not collateralized, nor are they required to be collateralized by state statutes. The County's deposits on December 31, 2009 were \$37,868,884, of which \$37,618,884 were uninsured and uncollateralized.

Investments. Custodial credit risk for investments is the risk that in the event of the failure of the counterparty, the County will not be able to recover the value of its investments that are in the possession of an outside party. The County does not have a formal policy specific to custodial credit risk of investments. However, general risk is addressed in the adopted Investment Policy.

B. Credit Risk

Credit risk is the risk that the counterparty to an investment transaction will not fulfill its obligations. The County's policy for limiting credit risk of investments is to comply with the Money Management Act. The Act requires investment transactions to be done only through qualified depositories, certified dealers, or directly with issuers of the investment securities. Permitted investments include deposits with qualified depositories; repurchase agreements; commercial paper classified as "first-tier" by two nationally recognized statistical rating organizations, one of which must be Moody's Investor Services or Standard & Poor's; bankers acceptances; obligations of the U.S. Treasurer and U.S. government sponsored enterprises; bonds and notes of political subdivisions of the State of Utah; fixed rate corporate obligations and variable rate securities rated "A" or higher by two nationally recognized statistical rating organizations; and shares in money market fund as defined by the Act.

For the Fiscal Year Ended December 31, 2009

The County is also authorized to invest in the Utah Public Treasurer's Investment Fund (PTIF), an external pooled investment fund managed by the elected Utah State Treasurer and staff. It is also subject to the Utah Money Management Act and Utah Money Management Council rules. The PTIF is restricted to public funds of public entities within the state of Utah. The PTIF is not registered with the Securities and Exchange Commission as an investment company and is not rated. Deposits in the PTIF are not insured or guaranteed by the State of Utah. The PTIF operates and reports to participants on an amortized cost basis. The income, gains, and losses, net of administration fees of the PTIF are allocated based on the participants' average daily balances. The value of the PTIF is approximately equal to the value of the pool shares. The County's investments as of December 31, 2009 are shown below:

Investment Type]	Fair Value	Maturity	Quality/Rating
Utah Public Treasurer's Investment Fund	\$	104,716,880	64 days*	not rated

*Weighted-average maturity, as reported by the PTIF

C. Interest Rate Risk

Interest rate risk is the risk that the value of an investment will be adversely affected by changes in market investment rates. The County manages exposure to declining value by investing primarily in the PTIF and by complying with the Act. The Act requires the remaining term to maturity of investments may not exceed the period of the availability of the funds to be invested. The Act further limits the remaining time to maturity of commercial paper to 270 days or less and fixed rate negotiable deposits and corporate obligations to 265 days or less. Maturities of the County's investments are noted in the previous table.

D. Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The County manages this type of risk by compliance with the Act and rules of the Utah Money Management Council. Rule 2 of the Council limits investment in certain endowments and funds. Rule 17 of the Council limits investment with a single issuer of commercial paper and corporate obligations to between 5 and 10 percent, depending upon the total dollar amount held in a government's portfolio at the time of the purchase.

NOTE 3. INTERFUND BALANCES AND LOANS

Interfund balances arise as the pooled-cash balance of a specific fund becomes negative, thus technically drawing on the pooled-cash of other funds. Interfund balances and loans at December 31, 2009 consisted of the amount below.

Due to the General Fund from Enterprise Funds:

Golf Fund

\$ 1,727,117

This amount is also included as part of the internal balance reported on the government-wide Statement of Net Assets.

For the Fiscal Year Ended December 31, 2009

NOTE 4. INTERFUND TRANSFERS

Transfers between funds occur primarily to finance programs accounted for in one fund with resources collected in other funds in accordance with budgetary authorizations. Interfund transfers for the year ended December 31, 2009 are shown below.

	Transfer In				ıt
Major Funds:					
General Fund\$	1,496,000	a, c, e	\$	14,512,496	b
Health Fund	2,257,500	b		-	
Library Fund	-			125,000	i
Flood Control Fund	3,000,000	b		229,932	d
Capital Projects Fund	5,000,000	b		4,300,000	i
Golf Course Fund	-			16,000	e
Nonmajor Funds:					
Tourism Fund	-			1,318,707	g
Aging Services Fund	1,545,000	b		-	
Special Service Area Fund	229,932	d		-	
Emergency 911 Fund	249,996	b		-	
Paramedic Fund	2,460,000	b		1,230,000	c
MBA Operating Fund	-			293,516	f
MBA Debt Service Fund	293,516	f		-	
Conf. Ctr. Debt Service Fund	1,440,670	g, h		-	
Davis Conference Center Capital Projects Fund .	-	•		121,963	h
Main Campus Constr. Capital Projects Fund	425,000	i		-	
Health Building Constr. Capital Projects Fund	4,000,000	i		-	
Commissary Fund	-	_		250,000	a
Total Transfers In and Transfers Out	22,397,614	_	\$	22,397,614	_

- a) The General Fund received \$250,000 from the Commissary fund to support general jail operations.
- b) The General Fund transferred general tax monies of the County to support health programs, flood control, senior service programs, Emergency 911, and paramedic. The General Fund also transferred \$5,000,000 to the Capital Projects Fund for construction projects.
- c) The General Fund received \$1,230,000 from the Paramedic fund to support general paramedic operations.
- d) The Flood Control Fund transferred \$229,932 to the Special Service Area Fund to rent heavy equipment used in flood control projects.
- e) The Golf Courses Fund transferred \$16,000 to the General Fund to pay for administrative expenses.
- f) The MBA Operating Fund transferred \$293,516 to the MBA Debt Service Fund to make debt service payments.
- g) The Tourism Fund transferred \$1,318,707 to the Conference Center Debt Service Fund for debt service payments.
- h) The Conference Center Capital Projects Fund transferred \$121,963 to the Conference Center Debt Service Fund for debt service payments.
- i) The Health Building Construction and Main Campus Construction Capital Projects Funds received various amounts to begin construction on those buildings.

NOTE 5. **CAPITAL ASSETS**

Capital asset activity for the year ended December 31, 2009 was as follows:

]	Beginning Balance		Additions	1	Deletions		Ending Balance
Governmental activities:								
Capital assets not being depreciated:								
Land and land improvements	\$	10,024,951	\$	1,659,899	\$	-	\$	11,684,850

is charged to the various functions based on their usage of the assets	 144,162
Total depreciation expense—governmental activities	\$ 4,556,504
Business-type activities:	
Golf	\$ 266,495

For the Fiscal Year Ended December 31, 2009

NOTE 6. SHORT-TERM DEBT

On July 15, 2009, Davis County issued \$6 million of tax anticipation notes at 2 percent interest. This short-term borrowing was necessary to meet operating needs prior to collection of property taxes in November. Total interest on these notes was \$55,000 and total principal and interest on the notes was paid in full on December 30, 2009.

NOTE 7. LONG-TERM LIABILITIES

A. Changes in Long-term Liabilities

Changes in long-term liabilities for the year ended December 31, 2009 were as follows:

	Balance January 1, 2009	Additions	Reductions	Balance December 31, 2009	Due Within One Year	
Governmental activities:						
General obligation bonds:						
Davis County general obligation bonds, series 2005	\$ 22,805,000	\$	<u>\$ (970,000</u>)	\$ 21,835,000	\$ 1,000,000	
Sales tax revenue bonds:

bonds, series 2006	1,524,000		(54,000)	1,470,000	57,000	
Total lease revenue bonds	2,428,000		(167,000)	2,261,000	112,000	
Lease/purchase agreement	1,973,160		(478,359)	1,494,801	317,935	
Compensated absences	2,762,427	2,041,509	(1,822,010)	2,981,926	298,193	
OPEB obligation	1,997,472	2,557,259	(595,605)	3,959,126		
Total governmental activity long-term debt	\$ 48,801,059	\$ 36,275,241	\$ (9,084,105)	\$ 75,992,195	\$ 3,358,128	
Business-type activities:						
Compensated absences	\$ 105,239	\$ 81,054	\$ (70,656)	\$ 115,637	\$ 11,564	
OPEB obligation	34,705	50,592	(11,783)	73,514		
Total business-type long-term debt	\$ 139,944	\$ 131,646	\$ (82,439)	\$ 189,151	\$ 11,564	

For the Fiscal Year Ended December 31, 2009

The compensated absence liabilities are liquidated in the General Fund or the fund where the related employing department operates.

Additional information related to these long-term liabilities is found in the following tables including debt service requirements to maturity.

B. General Obligation Bonds

The County issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the County. The County is subject to a statutory limitation, by the State of Utah, of bonded general obligation indebtedness of two percent of the most recent adjusted fair market value of taxable property. The limit for the County as of December 31, 2009 was \$509,554,235, providing a debt margin of \$487,719,235. General Obligation Bonds Payable at December 31, 2009 consisted of the following:

		General Obligation Bonds Payable									
	Issue Date	Maturity Date	Interest Rate	Original Amount	De	ecember 31, 2009					
2005 Jail Expansion Bonds	1/11/2005	2/1/2025	3.00%-4.75%	\$ 24,800,000	\$	21,835,000					

General Obligation Bonds-Debt Service Requirement to Maturity

	Series	Series 2005					
Year	Principal	Interest					
2010	\$ 1,000,000	\$ 899,050					
2011	1,030,000	867,313					
2012	1,070,000	829,175					
2013	1,115,000	784,081					
2014	1,160,000	737,188					
2015-2019	6,540,000	2,936,937					
2020-2024	8,065,000	1,413,956					
2025	1,855,000	44,056					
Total	\$ 21,835,000	\$ 8,511,756					

C. Sales Tax Revenue Bonds

The County issues sales tax revenue bonds to provide funds for the acquisition, construction, and expansion of major capital facilities. These bonds are not considered general obligations of the County, but are special limited obligations secured by and payable solely from the County's Sales Tax receipts.

On September 23, 2009, the County issued \$7,550,000 of Series 2009A sales tax revenue bonds with an average interest rate of 3.1% and \$19,450,000 of Series 2009B taxable Build America Bonds with an average interest of 5.47%. The 2009A bonds were issued at a premium of \$266,276. The bond proceeds are being used to finance the costs of storm drainage and flood control projects and related improvements. Pursuant to the American Recovery and Reinvestment Act of 2009, the County will receive cash subsidy payments from the United States Treasury equal to 35% of the interest payable on the 2009B Build America Bonds.

For the Fiscal Year Ended December 31, 2009

Also on September 23, 2009, the County issued \$4,925,000 of Series 2009C sales tax revenue bonds to advance refund \$4,475,000 of outstanding Series 2003B sales tax revenue bonds. The net proceeds of the new bonds of \$5,062,147, together with a cash contribution of \$116,000, were deposited into an irrevocable escrow account to provide for the debt service payments on the refunded bonds. As a result, \$4,475,000 of Series 2003B bonds are considered defeased and the escrow account assets and the liability for the defeased bonds are not included on the Statement of Net Assets.

The advance refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$703,147. This difference, reported in the Statement of Net Assets as a deduction from bonds payable, is being charged to operations through the year 2023 using the effective interest method. The refunding reduced the payments by \$227,305 over the next 14 years and resulted in an economic gain (difference between the present values of the old and new debt service payments) of \$122,853. Sales Tax Revenue Bonds Payable at December 31, 2009 consisted of the following:

D. Lease Revenue Bonds

Lease revenue bonds are issued by the Municipal Building Authority of Davis County, a blended component unit of the County. These bonds are not considered general obligations of the County, but are special limited obligations payable from the lease revenues derived from the assets acquired or constructed with bond proceeds. Lease Revenue Bonds Payable at December 31, 2009 consisted of the following:

		Lease Revenue Bonds Payable									
	Issue Date	Maturity Date	Interest Rate		Original Amount		Balance mber 31, 2009

Lease Revenue Bonds-Debt Service Requirement to Maturity

E. Lease/Purchase Agreement

On January 22, 2002 Davis County entered into a financing agreement with Zions First National Bank to provide a maximum of \$5,400,000 to pay for preliminary site improvements on a jail expansion and other small projects. The agreement requires annual appropriations by the County Commission and is secured by the improvements. The interest rate is variable at 70 percent of the Prime Lending Rate of the Bank. Payments are made annually in Janaury. The balance of the lease/purchase agreement at December 31, 2009 was \$1,494,801.

NOTE 8. NET ASSETS/FUND BALANCES

A. Restricted Net Assets

The government-wide statement of net assets reports \$40,833,438 of restricted net assets, none of which is restricted by enabling legislation.

B. Reserved Fund Balance

Davis County's reserved fund balances represent amounts that are legally restricted for specific purposes by external contracts, bond agreements, or county ordinances. The purposes for the reservations are noted on the face of the statements.

NOTE 9. RETIREMENT PLANS

A. Pension Plans

Davis County contributes to the Local Government Noncontributory Retirement System and the Public Safety Retirement System, (collectively, the Systems), both of which are cost-sharing multiple-employer defined benefit pension plans. The Systems are administered by Utah Retirement Systems (URS) under the direction of the URS Board, which consists of the State Treasurer and six members appointed by the governor. URS is established under and governed by Title 49 of *Utah Code Annotated*, *1953*, as amended (UCA). URS publishes an annual financial report that includes financial statements and required supplementary information for all retirement Systems, 540 East 200 South, Salt Lake City, Utah 84102; by calling 1-800-753-7361; or by visiting www.urs.org.

Retirement benefits, as specified by UCA Title 49, cover substantially all employees of the State, public education, and other political subdivisions of the State. Only the State Legislature can modify benefits. The Systems provide pension, death, and disability benefits for employees who meet all eligibility requirements. Employees are eligible for retirement benefits upon

For the Fiscal Year Ended December 31, 2009

attainment of the age specified for their employment classification or a combination of age plus years of service. A brief summary of eligibility, benefits, and contribution rates of the Systems is provided in the table located below.

Expenditures or expenses for retirement costs are recorded in the County's funds as contributions are made to the Systems. Contributions made each year were equal to the contributions required by the County's contract with URS. Therefore, the County has no liability for pension obligations.

(a) Requires full actuarial reductions.

(b) The Public Safety Contributory Retirement System was discontinued in 2008.

B. Deferred Compensation Plans

The County participates in a 401(k) Plan and a 457 Plan (collectively, the Plans), both of which are defined contribution plans administered by URS. The Plans are in addition to the retirement benefits outlined above. Voluntary contributions may be made to the Plans subject to URS and Internal Revenue Service limitations. The County contributes a matching amount up to 5.0 percent of eligible employees' salaries to the 401(k) Plan, and employees may contribute to both Plans up to maximum percentages allowed by IRS regulations.

Account balances of the Plans are fully vested to the participants at the time of deposit. All assets and income of the Plans are held by URS for the exclusive benefit of the participants or their beneficiaries. For the year ended December 31, 2009, Davis County contributed \$1,876,528 to employees' 401(k) Plans.

DAVIS COUNTY, UTAH NOTES TO THE FINANCIAL STATEMENTS For the Figuel Vacr Ended December 21, 2000

For the Fiscal Year Ended December 31, 2009

NOTE 10. OTHER POSTEMPLOYMENT BENEFITS

A. Plan Description

In addition to the pension benefits described in Note 10, the County provides postemployment health care, through a single employer defined benefit plan, to all employees who have worked for the County for at least eight years and are eligible to retire under Utah Retirement System regulations. The benefits, benefit levels, employee contributions, and employer contributions are governed by County policy, and can be amended at any time. The plan is not accounted for as a trust fund, as an irrevocable trust has not been established to account for the plan. The plan does not issue a separate report.

B. Funding Policy

The County currently pays for postemployment benefits on a "pay-as-you-go" basis. Although the County is studying the establishment of a trust that would be used to accumulate and invest assets necessary to pay for the accumulated liability, these financial statements assume that "pay-as-you-go" funding will continue.

C. Annual OPEB Cost and Net OPEB Obligation

The County's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the employer's annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years. For the fiscal year ended December 31, 2009, the County's annual OPEB cost (expense) was \$2,607,851. The following table shows the components of the County's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the County's net OPEB obligation:

Annual required contribution	\$ 2,639,565
Interest on net OPEB obligation	81,287
Adjustment to annual required contribution	 (113,001)
Annual OPEB cost (expense)	2,607,851
Contributions made	 (607,388)
Increase in net OPEB obligation	 2,000,463
Net OPEB obligation-beginning of year	 2,032,177
Net OPEB obligation-end of year	\$ 4,032,640

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the fiscal years ended December 31, 2008 and 2009 are as follows:

			E	mployer	Annual OPEB Cost	l	Net OPEB	
Fiscal Year Ended	Annual OPEB Cost		Contributions		Contributed	Obligation		
December 31, 2008	\$	2,639,565	\$	607,388	23.01%	\$	2,032,177	
December 31, 2009		2,607,851		607,388	23.29%		4,032,640	

For the Fiscal Year Ended December 31, 2009

D. Funded Status and Funding Progress

The funded status of the plan as of December 31, 2009 was as follows:

Actuarial accrued liability (AAL)	\$ 20,429,503
Actuarial value of plan assets	-
Unfunded actuarial accrued liability (UAAL)	20,429,503
Funded ratio (actuarial value of plan assets/AAL)	0%
Covered payroll (active plan members)	33,552,062
UAAL as a percentage of covered payroll	61%

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the actuarial valuation, the liabilities were computed with the projected unit credit method using full accrual at full eligibility age. The actuarial assumptions utilized a 4 percent discount rate. Because the plan is unfunded, reference to the general assets, which are short-term in nature, was considered in the selection of the 4 percent rate. The valuation assumes a 6.5 percent medical trend rate for 2009, reduced by decrements of .5 percent each year to a rate of 5.5 percent for 2011 and later. The unfunded actuarial accrued liability (UAAL) is being amortized over a closed 30 year period in level dollar amounts.

NOTE 11. RISK MANAGEMENT

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County purchases commercial insurance through the Utah Counties Insurance Pool to mitigate the costs of these risks. The County's responsibility extends only to payment of premiums and deductibles. Deductibles are \$500 for general liability claims and \$1,000 for auto physical damage. The amount of settlements has not exceeded insurance coverage since the inception of commercial insurance coverage in 1998. The County also purchases a \$10,000,000 excessive policy from States Insurance.

The County maintains the Risk Management Fund (an internal service fund) to account for the cost of commercial insurance and to finance its risk of losses not covered by insurance. All departments of the County make payments to the Risk Management Fund based on estimates of each department's insurable risks of loss and on amounts needed to pay prior and current-year uninsured claims.

NOTE 12. LITIGATION AND CONTINGENCIES

The County records liabilities resulting from claims and legal actions when they become fixed or determinable in amount. The County is currently the defendant in several pending lawsuits. Legal counsel is of the opinion that potential claims against the County resulting from such litigation not covered by insurance do not pose a threat of significant liability to the County.

The County has received several federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to grantor agencies for expenditures disallowed under the terms of the grant. Based upon prior experience, the County believes such disallowances, if any, will be immaterial.

NOTE 13. JOINT VENTURES – South Davis Metro Fire Agency

The South Davis Metro Fire Agency was created through an inter-local governmental agreement among various municipalities in southern Davis County. The District exists to provide fire protection and ambulance services to those entities involved in

For the Fiscal Year Ended December 31, 2009

the agreement. The Agency is governed by a 7-member board consisting of representatives from each of the five cities and also two from the County. The Board is responsible for directing all activities of the Agency including approving an annual budget and appointing the Chief. Separate financial information can be obtained from South Davis Metro Fire Agency, 255 South 100 West, Bountiful, Utah 84010.

The South Davis Metro Fire Agency receives its funding from an annual assessment paid by each participant. The assessment is allocated based on taxable value of each participating entity. In 2009, the County participated as a representative of the citizens of the unincorporated area of the County. The payment is recorded as part of the Special Service Area Fund. The County payment for 2009 was \$140,587. It represents only 3.13% of the total operating costs of the Agency.

NOTE 14. COMMITMENTS

A. South Davis Recreation District / Inter-local agreement

In 2005 Davis County entered into an inter-local financing agreement with the South Davis Recreation District and Bountiful City for Bountiful City to provide \$2,000,000 to pay for the construction of an ice arena for the development of tourism within the District. The agreement advanced \$2 million dollars to the South Davis Recreation District from Bountiful City. The County committed to use monies from its Tourism fund over a ten-year period to help the District repay this advance to Bountiful City. The agreement requires annual appropriations by the County Commission. The commitment is not considered a long-term debt of the County since the County received no proceeds nor did the County receive any assets, but rather, the County entered the agreement to support the South Davis Recreation District since it benefits the Citizens of the County, as well as, promotes tourism in the County. Should the Commissioners elect annually to fund the payment, (as shown on the table below) semiannual principal and interest payments are due before July 1 and December 31 of each year to the District. The interest rate is 3.5%. The balance of the inter-local agreement at December 31, 2009 was \$1,282,113.

	2005 SDRD ILA

SDRD Inter-Local Agreement - Debt Service Requirement to Maturity

B. Davis Cultural Arts Center / Inter-local agreement

On March 17, 2009, the County entered into an inter-local financing agreement with the Redevelopment Agency of Centerville City (the "Agency") to provide a total of \$2,000,000 towards the building and promoting of a Cultural Arts Center. Under the terms of the agreement, the County made an initial lump sum payment of \$800,000 to the Agency on May 26, 2009, and will subsequently, for a period of seven years, provide the Agency with yearly payments of \$171,429 on March 1 of each of the seven years. All payments are subject to budget appropriation and approval by the County Commission.

DAVIS COUNTY, UTAH NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

For the Fiscal Year Ended December 31, 2009

Budgeting and Budgetary Control

As more fully explained in Note 1 of the Notes to the Financial Statements, annual budgets are prepared and adopted before December 31 for the calendar year commencing the following January 1 in accordance with the Uniform Fiscal Procedures Act for Utah Counties. State law requires budgeted revenues to equal budgeted expenditures, and legal control is exercised at the division level. Once a budget has been adopted, it remains in effect until it has been formally revised. Budgets for the General Fund, special revenue, debt service, and capital projects funds are legally required and are prepared and adopted on the modified accrual basis of accounting. Therefore, no reconciliation between budgetary schedules and the GAAP statements is required.

The budgetary comparison schedules presented in this section of the report are for the General Fund and each of the County's major special revenue funds. Budgetary comparison schedules for the County's other governmental funds are included as Supplementary Information. Original budgets represent the revenue estimates and spending authorized by the Board of County Commissioners prior to January 1. Final budgets represent the original budget amounts plus any amendments made to the budget during the year by the County Commissioners through formal resolution. Final budgets do not include unexpended balances from the prior year because such balances automatically lapse to unreserved fund balance at the end of each year.

Nonmajor Governmental Funds

Tourism Special Revenue Fund

This fund accounts for transient room tax, restaurant tax, car rental tax, and other revenues and expenditures of the County related to the promotion and development of tourism within the County.

Aging Services Special Revenue Fund

This fund accounts for all activities of the Aging Services Department. It includes services provided for senior citizens and also for the Tri-County Weatherization projects managed by the County.

Special Services Area Special Revenue Fund

This fund accounts for revenues and expenses related to providing municipal type services in the unincorporated areas of Davis County. In addition, it includes the County's B-Roads and the Vehicle Service Department.

Emergency 911 Dispatch Special Revenue Fund

This fund accounts for revenues and expenditures related to the 911 emergency numbers.

Paramedic Special Revenue Fund

This fund accounts for the costs associated with the interlocal agreement the County has with the South Davis Metro Fire Agency and the Layton Fire Department for paramedic services in parts of the County.

Municipal Building Authority Special Revenue Fund

This fund accounts for monies received by the County related to the rental of County buildings.

General Obligation Debt Service Fund

This fund accounts for the accumulation of property taxes for the payment of principal, interest, and related costs of the County's general obligation bonds.

Municipal Building Authority Debt Service Fund

This fund accounts for the revenues and expenditures related to the long-term debt of the County Municipal Building Authority Bonds.

Conference Center Debt Service Fund

This fund accounts for the revenues and expenditures related to the long-term debt of the County's Conference Center Revenues Bonds.

Capital Projects / Davis Conference Center Expansion Fund

This fund accounts for the revenue and expenses related to the construction of the Davis Conference Center Exhibition Hall expansion.

Capital Projects / Main Campus Construction Fund

This fund accounts for the revenue and expenses related to the construction of the new Main Campus buildings.

Special Capital Projects Fund

This fund accounts for the revenue and expenses related to the construction of the new Davis County Health Department Building and Senior Center in Clearfield.

Agency Funds

County Agency Fund

This fund accounts for monies received by the County; on behalf of third parties pending litigation, for county-wide tax collections pending final distribution, and deposits held in trusts for outside parties related to construction and development costs.

Treasurer Tax Collection Fund

This fund accounts for the receipts and disbursements of property tax revenues for the various taxing entities of Davis County including cities, towns, special districts, and the Davis School District.

Employee Benefits Funds

These funds account for monies collected from County and ex-County employees in accordance with Internal Revenue Code sections. It contains the Retirees Health Benefit Clearing and the County's Payroll Clearing Funds.

Statistical Section

The Statistical Section provides additional historical context and detail to aid in using the information in Davis County's financial statements and in understanding and assessing the County's overall financial health.

Financial Trends Information

These schedules present trend information to help the reader understand how the County's financial performance and fiscal health have changed.

Net Assets by Component	116
Changes in Net Assets	118
Fund Balances – Governmental Funds	
Changes in Fund Balances – Governmental Funds	122

Revenue Capacity Information

These schedules contain information to help the reader assess the County's capacity to raise revenue from the County's most significant revenue source, property tax.

Assessed Value and Estimated Actual Value of Taxable Property	
Direct and Overlapping Property Tax Rates	
Principal Property Taxpayers	
Property Tax Levies and Collections	

Debt Capacity Information

These Schedules present information to help the reader understand and assess the County's levels of outstanding debt and the County's ability to issue additional debt in the future.

Ratios of Outstanding Debt by Type	130
Ratios of General Bonded Debt Outstanding	
Computation of Direct and Overlapping Debt	
Legal Debt Margin	
Pledged Revenue Coverage	

Demographic and Economic Information

These schedules present demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place.

Demographic and Economic Statistics	5
Principle Employers	6

Operating Information

These schedules offer operating data to help the reader understand how the information in the County's financial report relates to the services it provides and the activities it performs.

Full Time Equivalent County Government Employees	
Operating Indicators by Function/Program Capital Asset Statistics by Function/program	

Sources: Unless otherwise noted, the information in the following schedules is derived from Davis County's Comprehensive Annual Financial Reports for the years indicated.

STATISTICAL SCHEDULE 1 NET ASSETS BY COMPONENT - LAST SEVEN FISCAL YEARS (ACCRUAL BASIS OF ACCOUNTING)

Notes:

1 2009 Values are preliminary and subject to change. Taxable values used in this table excludes the taxable value used to determine uniform fees on tangible personal property.

2 The Weber Basin Water Conservatory District covers all of Morgan County, most of the County and Weber Counties, and portions of Box Elder and Summit Counties. Principal and interest on WBWCD general obligation bonds are paid from sales of water. WBWCD bonds are shown as overlapping but are self-supporting except for a maximum .000200 tax rate.

3 All or portions of these governmental entities outstanding general obligation debt are supported by user fee revenues from water or sewer. The County's portion of overlapping general obligation debt has been reduced to the extent that such general obligation debt is supported by 'user fee revenues.'

4 The South Davis Recreation District members include the cities of Bountiful, Centerville, North Salt Lake, Woods Cross, West Bountiful, and part of unincorporated Davis County.

5 The State's general obligation debt is not included in overlapping debt because the State currently levies no property tax for payment of general obligation bonds.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Board of County Commissioners Davis County, Utah

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of Davis County as of and for the year ended December 31, 2009, which collectively comprise Davis County's basic financial statements and have issued our report thereon dated May 28, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Davis County's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Davis County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Davis County's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Davis County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the County Commissioners, others within the entity, and federal and state funding agencies and is not intended to be and should not be used by anyone other than these specified parties.

Crane, Christensen + ambrose P.C.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE APPLICABLE IN ACCORDANCE WITH OMB CIRCULAR A-133

The Board of County Commissioners Davis County, Utah

Compliance

We have audited the compliance of Davis County with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended December 31, 2009. Davis County's major federal programs are identified in the summary of auditors' results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Davis County's management. Our responsibility is to express an opinion on Davis County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Davis County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Davis County's compliance with those requirements.

In our opinion, Davis County complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended December 31, 2009.

Internal Control Over Compliance

Management of Davis County is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Davis County's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Davis County's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance requirement of a federal program with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be

deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the County Commissioners, others within the entity, and federal awarding agencies and passthrough entities and is not intended to be and should not be used by anyone other than these specified parties.

Crane, Christensen & ambrose P.C.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

FOR THE YEAR ENDED DECEMBER 31, 2009

I. SUMMARY OF AUDITORS' RESULTS

- 1. The independent auditors' report on the financial statements expressed an unqualified opinion. The financial statements of Davis Behavioral Health (a component unit of Davis County) were audited by other auditors, whose reports have been furnished to us, and our report, insofar as it relates to the amounts included for Davis Behavioral Health, is based solely on the reports of such other auditors.
- 2. No deficiencies in internal control over financial reporting were required to be reported.
- 3. No instances of noncompliance considered to be material to the financial statements were disclosed by the audit.
- 4. No conditions in internal control over compliance with requirements applicable to major federal awards programs were required to be reported.
- 5. The independent auditors' report on compliance with requirements applicable to major federal award programs expressed an unqualified opinion.
- 6. The audit disclosed no findings required to be reported by OMB Circular A-133.
- 7. The major federal programs of the County for the year ended December 31, 2009 are as follows:

CFDA#	Expenditures
10.557	\$ 3,546,603
81.042	267,357
81.042	731,067
93.069	588,580
	,
93.283	425,449
	10.557 81.042 81.042 93.069

8. A threshold of \$300,000 was used to distinguish between Type A and Type B programs as those terms are defined in OMB Circular A-133.

9. The County qualified as a low risk auditee as that term is defined in OMB Circular A-133.

NOTES TO SUPPLEMENTARY SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

- 1. *General* The accompanying Supplementary Schedule of Expenditures of Federal Awards presents the activity of all federal awards of Davis County (the County). Federal awards received directly from federal agencies as well as federal awards passed-through other government agencies are included on the Supplementary Schedule of Expenditures of Federal Awards.
- 2. **Basis of Accounting** The accompanying Supplementary Schedule of Expenditures of Federal Awards is presented using the modified accrual basis of accounting.
- 3. *Noncash Federal Awards* Noncash federal awards represent commodities consumed during the year, expressed at market value. The State estimates the per unit fair market value of these commodities. Noncash federal financial assistance is calculated by multiplying the per unit fair market value by the net commodities consumed.

INDEPENDENT AUDITORS' REPORT ON STATE AND LEGAL COMPLIANCE

DECEMBER 31, 2009

Steven F. Crane, CPA Kent R. Christensen, CPA Jeffrey L. Ambrose, CPA Chuck Palmer, CPA

Independent Auditors' Report on State and Legal Compliance

Honorable County Commissioners Davis County Farmington, Utah

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Davis County, Utah (the County) for the year ended December 31, 2009, and have issued our report thereon dated May 28, 2010, which report was modified as described below. The financial statements of Davis Behavioral Health (a component unit of Davis County) were audited by other auditors, whose reports have been furnished to us, and our report, insofar as it relates to the amounts included for Davis Behavioral Health, is based solely on the reports of such other auditors. As part of our audit, we have audited the County's compliance with the requirements governing types of services allowed or unallowed; eligibility; matching, level of effort, or earmarking; reporting; and special tests and provisions applicable to each of its major State assistance programs as required by the State of Utah.

Mental Health (Department of Human Services) Substance Abuse (Department of Human Services) Drug Court Grant (Department of Human Services) Senior Citizen Programs (Department of Human Services) DORA (Department of Human Services) Children's Justice Center (Attorney General's Office)

The County also received the following non-major grants which are not required to be audited for specific compliance requirements. (However, these programs were subject to test work as part of the audit of the County's general purpose financial statements.):

EMS Grants (Department of Health) DEO Funding (Department of Environmental Quality) Weatherization Programs (Department of Community and Culture) Tobacco Prevention and Control (Department of Health) Minimum Performance Standards (Department of Health) Medicaid Waiver Program (Department of Human Services) Local Health Department Environmental Services (Department of Environmental Health) Public Library Development (State Library Division) Library Lending (State Library Division) Tobacco Community Collaboration (Department of Health) Community Library Enhancement Fund (State Library Division) Disease Outbreak and Response (Department of Health) Radio Alert System (Department of Public Safety) Drug Board (Department of Human Services) Family Resource Facilitator (Department of Human Services) Alcohol/Drug Training (Department of Public Safety)

Our audit also included test work of the County's compliance with the following general compliance requirements identified in the State of Utah Legal Compliance Audit Guide:

Public Debt Cash Management Purchasing Requirements Budgetary Compliance Truth in Taxation and Property Tax Limitations Liquor Law Enforcement Justice Courts Compliance B & C Road Funds Other General Compliance Issues Department of Commerce - Uniform Building Standards Statement of Taxes Charged, Collected, and Disbursed Assessing and Collecting of Property Taxes Transient Room Tax Utah Retirement System Compliance

The management of Davis County is responsible for the County's compliance with all compliance requirements identified above. Our responsibility is to express an opinion on compliance with those requirements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether material noncompliance with the requirements referred to above occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements. We believe that our audit provides a reasonable basis for our opinion.

The results of our audit procedures disclosed instances of noncompliance with the requirements referred to above, which are described in the accompanying Schedule of Findings and Questioned Costs. We considered these instances of noncompliance in forming our opinion on compliance, which is expressed in the following paragraph.

In our opinion, Davis County complied, in all material respects, with the general compliance requirements identified above and the requirements governing types of services allowed or unallowed; eligibility; matching, level of effort, or earmarking; reporting; and special tests and provisions that are applicable to each of its major State assistance programs for the year ended December 31, 2009.

Crane, Christensen + ambusse P.C.

Schedule of Findings and Questioned Costs

Year Ended December 31, 2009

PROGRAM: JUSTICE COURTS COMPLIANCE

FINDING:	On one of the sample cases selected, a delinquency enhancement on a moving violation was charged but the computer system did not calculate the 35% surcharge on that amount.
QUESTIONED COSTS:	None
RECOMMENDATION:	The County should make sure the system is properly calculating the appropriate surcharge on all applicable amounts received in the system.
COUNTY'S REPLY:	This is a State system. The County will forward the issue to the State for further analysis and correction.

PROGRAM: CLASS B AND C ROAD FUND COMPLIANCE

FINDING:	The advertisement for bids on a Class B project was not published for three consecutive weeks in accordance with Utah Code Section 72-6-108.
QUESTIONED COSTS:	None
RECOMMENDATION:	The County should publish its advertisements for bids at least once a week for three consecutive weeks in accordance with State Code.
COUNTY'S REPLY:	Public Works has been informed and will be more diligent in its request for bid advertisement to comply with State law.

PROGRAM: UNIFORM BUILDING CODE STANDARDS

FINDING:	The report for the quarter ended June 30, 2009 was not filed within 30 days (by July 31, 2009).
QUESTIONED COSTS:	None
RECOMMENDATION:	The County should submit each quarterly report within 30 days of the end of each quarter.
COUNTY'S REPLY:	Economic Development has been informed and will strive to meet the 30 day deadline for report filings in the future.
