

Around the Ocean

Supplies Need: Coffee filters, fish templates, green paper or color some paper green, markers, glue, spray bottle with water in it, and paper towels.

Directions:

1. Color a coffee filter with blue marker. Add some green and/or teal color to it or any other ocean colors you would like. This becomes your "Round Ocean."
2. Lay your colored "Round Ocean" (coffee filter) on top of some paper towels to protect the underneath surface. Spray the coffee filter with water and then let it dry.

The colors from the markers will bleed through.

3. Print out the sea animals. Cut out one of the sea animals. Glue it onto your round ocean.
4. Cut out some seaweed out of green paper to add to the bottom.
