**WORK SESSION
DISCUSSION**

Discussion of the West Davis Highway Trail Construction Area at the 200 North Interchange in Kaysville—Presented by Jeff Oyler, Planning Manager

Jeff explained the problem at the West Davis Trail crossing at 200 North. It is designed at grade, and no traffic signals are planned at the intersection. He has been working with Kaysville City on the matter, and they are in agreement this will cause pedestrian and vehicle conflicts. It is the only trail crossing at grade level. The trail system will be owned and maintained by the County when it is finished, and if it is not resolved with UDOT now, it will become the County's problem.

Randy Jeffries said there would be some flashing light beacons installed at the crossing. Some solutions discussed were installing a box culvert under the road, installing a bridge structure over the road, or moving the overpass at Weaver Lane south of the 200 North Interchange in order to get the trail on the west side of the highway sooner.

Jeff said it would be far cheaper to solve the problem now rather than waiting for complaints or accidents to arise. Kaysville City has committed \$250K to help solve the problem, and Jeff asked the Commission to consider committing \$1 million from Prop 1 Funds. Randy Jeffries recommended investing some of that money in a feasibility study. The Commission agreed a feasibility study should be done.

ADJOURNMENT

The meeting adjourned at 11:41 a.m.
